

a dynamic & PROACTIVE company

ProAction.Networks

New Values - New Strategy - New Ideals

ProAction Networks is a relatively new company – a family business, founded in March 2008 by Angelique & Alexander Maggs. Alex is an experienced engineer, account manager, project manager and troubleshooter in a wide range of Data and Telecommunications systems. Angelique is a qualified Account Manager, Book Keeper and Team Leader. The main objectives of ProAction Networks is as follows:

To Supply and Support the **best** in Professional Voice and Data solutions, incorporating local and wide area networking, back office and front-of-house systems and to help develop a strong web presence. We also provide short term casual consultancy on a variety of subjects.

To develop and encourage **strong relationships** with clients and build a **community** between the customer, staff and partners.

To **be innovative**, to be **open** and consider the **mutual dependency** between the organisations and individuals we work with.

ProAction Networks Overview & Web Presence

Personnel Background

The director of ProAction Networks - Alex Maggs has applied himself as Project Manager, Troubleshooter and Account Manager for a variety of organisations through previous job roles. Entering into the Information Technology (IT) industry in 1999, he has ensured each and every job is done well and placed great emphasis in honest and strong relationships. He has worked for two large multinationals until 2002 when he joined a smaller firm for six years as an all-round manager and troubleshooter in Bedfordshire.

In early 2008, Alex formed ProAction Networks - the umbrella company with a number of separate but overlapping interests.

ProAction Networks' main aim is to supply and support converged Data and Voice solutions. Partnerships have been formed with several key players including NEC, Cisco, Microsoft and Westcon. To date we have enjoyed successes in commissioning several Cisco, NEC & Zeacom systems in the

Case Studies

March 2008 - Full Project Management and Implementation of the Telecommunications for a New York Auction House, with applications integration and VoIP convergence to 8 other worldwide locations. On time and On budget.

May 2008 - Implementation of the Voice solution for the UK arm of a large international investment company, headquartered in Australia. With full VoIP integration to existing infrastructure, training and ongoing support.

UK and United States for several international companies. In many cases, integration into existing worldwide infrastructure has been achieved along with services such as Project Management, Implementation, Training and Maintenance.

ProAction Networks has enjoyed successes in supplying and commissioning Cisco and IBM hardware into various small to medium enterprises (SME).

The Company's personnel have a wide range of experience and are all fully NEC and Zeacom qualified in addition to being Cisco Certified Network Associates and Microsoft Certified Professionals.

WWW.NECPBX.CO.UK

Our NEC website was established early on to act as a homing beacon to organisations in the UK with a rich investment in NEC and Zeacom products. The site has consistently evolved to provide news and resources to those working with the 2000IPS or IVS Systems and/or the Zeacom Communications Centre - a powerful applications and Computer Telephony Integration (CTI) server.

Future developments include a full working forum so users can share knowledge and ask questions with other product users and qualified professionals.

WWW.NECPBX.CO.UK

No.1 UK RESOURCE
FOR THE NEC 2000IPS
& ZEACOM SERVER

WWW.MKDATA.CO.UK

A tertiary 'shop front' in the form of a local outlet for small business support, casual consultancy and competitive services to private individuals. The aim of this web site is to reach out to people and small businesses in Buckinghamshire, and primarily the greater Milton Keynes area.

WWW.CISCO-FORUMS.COM

A joint venture between ProAction Networks and counterparts from the United States - cisco-forums.com is a newly formed community mainly centred around Cisco qualifications and training. There are also sections on Microsoft accreditations.

The main aim of the site is to build a community where like minded professionals can share experiences, resources and information regarding Cisco device management, infrastructure, design and so on.

Dynamic Web Design

At ProAction Networks, we love what we do and we love being creative - that's why all our web development is done in house.

We host our own websites, and services in-house.
